

Ametals was created in 1993 and is based in Court St Etienne near Brussels in Belgium.

Acting at first as a consultancy service for other metal trading companies, we started acting as principal in 1997.

Since then we have been regularly holding stocks, purchasing and delivering metals the world over.

Our main activity is centered on the trading and distribution of Ferro-Alloys and Non-Ferrous metals.

Within these we specialize in Noble Ferro-Alloys and enjoy an excellent reputation amongst all the main actors in this sector.

Our extensive experience and market awareness will always guarantee an efficient two way relationship.

Ametals is owned and currently managed by Alexandre Gerard (Ir, MSM).
