

SJM Alloys & Metals Ltd (est. 1993) is a UK based dealer, processor and recycler of super alloys, specialty steels and refractory metal scraps. We handle primary metals including Ni, Cr, Mo, Co, W, Hf, Ta, Nb, & Ti.

The alloys that we recycle include:

Cobalt Based & Cobalt Containing - Stellites™, Hyperco™, Umco™, AlNiCo™ & Maraging™

Tungsten Based - Densalloy™, Hevimet, Tungsten Carbide & Tungsten Copper

Molybdenum Based - TZM, Mo La, MoW

Nickel Based - Hastelloy™ & Inconels™

Nickel & Cobalt based refinery materials

We deal in the above alloys in the form of solids, turnings, powders, grindings & residues.
