

VERITEK is a privately-owned British company with Head Office in the UK and regional African Head office in Lagos Nigeria.

Established in 2013, the company specialises in the most economically active zones of West Africa, with a focus on Nigeria and neighbouring countries. We provide our customers with services and information that enable them to succeed in their objectives in the region.

Veritek is an ISO 9001:2015 accredited company. It is committed to providing efficient, cost effective and professional INSPECTION and SAMPLING services in line with international best practices.

In the minerals sector, we provide the following services:

Inspection and Sampling of Minerals, Mineral Concentrates and Ores,

WSMD Services,

Stock Management and Audits

Container Stuffing Supervision

Monitoring the Gate-in and Sealing of Containers within the Ports

Radioactivity testing

Sample preparation and dispatch

Mine Site Sampling

Coordinating its operations from the regional headquarters in Lagos, Nigeria, Veritek has offices in Jos, Plateau State and Onne Port. Its inspectors operate all around Nigeria to ensure that risk is minimized at strategic points in the supply chain.
