

We have the largest primary germanium processing factory in the world, with an area of more than 200,000㎡. Our factory is located in Xishan Village, Economic and Technological Development Zone, Qujing City, Yunnan Province. The climate is pleasant and the annual temperature does not drop below 10 degrees Celsius which, creates excellent working conditions for a stable operation. Yunnan Chihong International Germanium works to ensure employee safety, environmental and sustainable development and, we are committed to creating a clean, environmentally friendly and sustainable profit-making enterprise. We provide a professional and thorough service for our customers.

Our products mainly include Germanium Dioxide, Zone refined Germanium ingot, Germanium Powder, Germanium single crystal and it's products.
